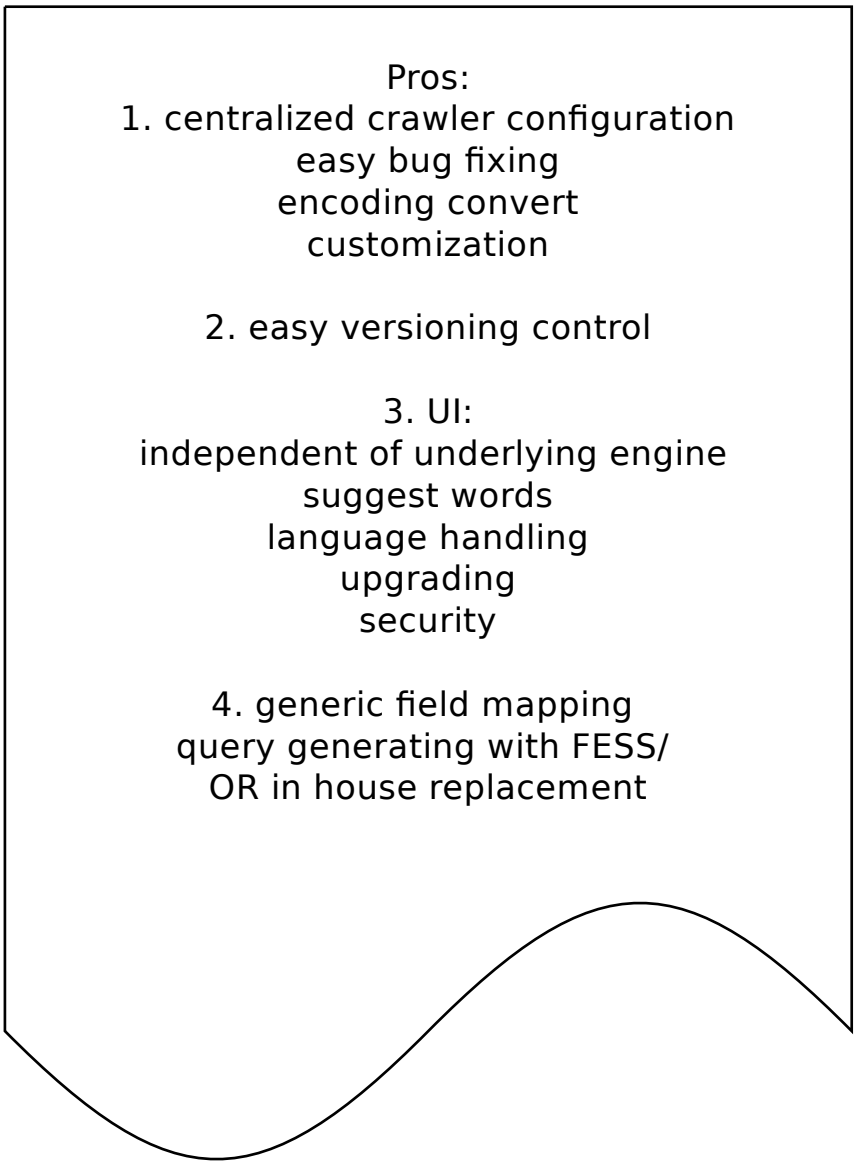
GUI
crawler
1.solr exposed
security concern
2. hard to
maintain
3. hard to
load balance
Front End page
Admin
GUI
Solr server



Pros:
1. centralized crawler configuration
easy bug fixing
encoding convert
customization
2. easy versioning control
3. UI:
independent of underlying engine
suggest words
language handling
upgrading
security
4. generic field mapping
query generating with FESS/
OR in house replacement
